This specification defines the Mechanical and Electrical characteristics of the AC brushless external rotor motorized axial fan and backward curved impeller.

## Model: PC60B2A1300F

Motor: AC motor

### ◆ 1. General Characters

1-1	Rated Voltage	230 VAC
1-2	Frequency	50 Hz
1-3	Rated Speed	1800/2000/2200 RPM
1-4	Input Current	0.22/0.30/0.38 A
1-5	Input Power	28/39/52 W
1-7	Acoustical Noise	40.2/42.7/45 dB(A)
1-8	Life Expectance	30,000 Hours At nominal supply voltage, full speed room temperature 20°C.
1-10	Direction of Rotation	Clockwise seen on rotor
1-11	Dimension	See dimension drawing
1-12	Material of Impeller	Aluminum alloy
1-13	Air Flow	589/654/720 m <sup>3</sup> /H
1-14	Static Pressure	17/20/24 Pa

### ◆ 2. Environmental Characters

2-1	Operating Temperature	-20°C to 60°C
2-2	Storage Temperature	-40°C to 80°C
2-3	RoHS	All the material meets RoHS standard.

# Model: PC60B2A1300F

Motor: AC motor

## **Model: PC60B2A1300F**

**Motor: AC motor**

### **◆ 5. Safety Requirements**

1. Make sure that the metal casing of the stator connected to the ground before being powered on.
2. If the fan doesn't work after been powered on, please check the speed control input voltage, it may not be well connected. To prevent the suddenly start of the fan to hurt hands or other personal injury; do not touch the impellers or rotor when the power is on.
3. Fan needs a few seconds to start after being powered on. To prevent personal injury, do not touch the impellers or rotor when the power is on or in a low speed.
4. Unless they are instructed by the person(s) responsible for their safety, those who are lack of physical, mental or sensory capacities and proper practical experience or expertise cannot use this appliance. Please do not let the children play with this product.
5. If the power cord be damaged, the power cord must be replaced by the manufacturer in order to avoid accident of the proxy service personnel or the equivalent qualification maintenance personnel.
6. As an integral part of the fan, this DC motor cannot be used alone without impeller or load.
7. Please carefully read this technical specification before using the product.
